Dear Mr. McNeal:

This is a follow-up letter to Mr. Ruggeri's letter to you dated November 24, 1982, a copy of which was sent to you.

On behalf of S & S Mining Company I am trying to comply with your technical requirements.

As you know, we have furnished you with a water analysis which is apparently inadequate for your purposes. We are trying to get a complete analysis without success. Does the State Engineer make such an analysis? University of Utah? Utah State University?

Can you suggest to us where we can obtain the kind of analysis you will accept?

Sincerely,

Robin Groff
